IRANIAN MONARCHIST MOVEMENT

در پناه خدای یگانه، شاه، نگهبان میهن ماست

September 7, 2008

Dear Governor Palin:

I want to take this opportunity to congratulate you on your nomination as the candidate for Vice President of the United States . As an Iranian/American woman concerned for the situation of my motherland, the country where my ancestors helped build, the country where my parents called home and loved with all their heart and energy , I have been following your candidacy, with much enthusiasm, to see once elected what your team's policy will be *vis-à-vis* freedom movement in Iran.

You spoke about fighting your own battles in Alaska with the big oil companies and different lobbying organizations. It hit close to home for me. My compatriots in exile along with myself and my family have also been fighting our battles with some of the same oil companies and certain lobbyist organizations that have been in one way or other, knowingly or not knowingly helping the Mullah regime in Iran to survive, during the past thirty years.

Thirty years ago, Iran a country struggling to move into the 21st century was thrown back into the conditions of the dark ages. The world's major oil companies, super powers, European business men, radical Arab nations all, came together to lend a helping hand in that venture. President Carter became the flag bearer of it all, accusing the late Shah of Iran's regime of being corrupt and grossly violating Human Rights .The US President, with leaders of the United Kingdom , France , Italy , Canada and Japan met at Guadeloupe and decided to help Khomeini and his cohorts to replace the Shah's regime. To implement this policy and to neutralize the Iranian armed forces and police, they sent the US deputy Commander of the NATO forces, General Huizer to Iran , without even informing the Shah. The late Shah writes in his memoirs that the American Ambassador to Iran , Mr. Sullivan, had visited him , time and again , after the Guadeloupe meeting to induce him into leaving Iran , the excuse being "for the sake of his own safety " He thus left the country Iran, never to return again. A man, who was one of the US 's staunchest ally in the Middle East , couldn't even find a place to get the proper medical attention he needed to treat his lymphatic cancer. The US supported gang of criminals, headed by Khomeini entered Iran and took over the reins of the State in less than a month. During the past 29 years they have done all sorts of misdeeds, including at least 90,000 cold blooded executions. In fact Khomeini started the war with Iraq , because of his plans to export his revolution to Iraq . That was the reason for Sadam's invasion of Iran , which lead to an eight year long war, with over one million casualties and over \$100 billion damage to both sides.

During the nearly past three decades of clerical rule in Iran , the conditions of lives of at least 80% of Iranians has deteriorated. By all accounts today nearly 50% of the population of the country, live bellow the poverty line. Civil and political rights are nonexistent and cultural life is absolutely under the control of the regime. Torture and capital punishment abounds all over the country. Discrimination against women and religious minorities is deplorable.

I don't think I need to remind you of the US embassy hostage takings in Tehran or to bring to your attention the foot prints of the Islamic Republic in the bombing of the US Embassy and the US Army barracks in Lebanon, the bombings of the U.S. Army Headquarters in Al khobar, Saudi Arabia , the bombings of the Argentine Jewish Center and the safe haven which for many years they provided for Al Qaida operatives moving back and forth between Europe and Afghanistan through Iran , without stamping their passports. The Islamic regime is and has been involved in funding, training and harboring terrorists and terrorist organizations from different parts of the world. They are known to be meddling in the internal affairs of Iraq and Afghanistan .

The reason I am going back to nearly thirty years ago is for you to get a vivid picture of what we are battling today against and why.

Dear Governor Palin, your opponent Senator Biden has been supportive of the Islamic Republic's apologists here in the United States. He has also allowed them to do fund raisings for him. He is known to have supported their organizations such as the American Iranian Council (AIC), the same organizations protected by some of the same Oil Companies you fought against. Please go to their site and see those companies listed as their sponsors: <http://us-iran.org/home.php?mains=10&subs=172>

I have provided links to articles regarding Senator Biden's involvement with the Islamic Republic apologists (since 2002). Please take the time to read these, I think these could be points to bring up during your debate with him.

In conclusion I want you to know that these quotes from your speech truly impressed me:

“Terrorist states are seeking new-clear weapons without delay ... he wants to meet them without preconditions.”

Al Qaeda terrorists still plot to inflict catastrophic harm on America ... he's worried that someone won't read them their rights? Government is too big ... he wants to grow it.

In my opinion if the US would truly stand today with the people of Iran and support them with their aspiration to bring about regime change, there is no need for any military involvement. The people of Iran have educated themselves and know that through acts of non-violent civil disobedience regime change is very possible with minimal bloodshed and violence. Just as it happened in South Africa , in Ukraine , in Serbia The Iranian people, in my opinion today need the true constant signal of support of the United State to make it happen.

As a woman watching the deterioration of women's rights for the past thirty years and the suffering of the youth in my motherland I can not and will not sit quiet. I decided to write to you regarding these issues to paint a better picture of what can be done, and hope the information I have provided to you will be helpful in your campaign.

With my utmost respect.
