

Mosques and the Islamization of America

Thursday, 12 August 2010

Disguised as religion, Islam has penetrated democracies with the aim of replacing civility and liberty with the barbarism of 7th century Islamic theocracy and Sharia law. Islam's multi-pronged attack aims to destroy all that liberty offers.

America, with a long tradition of protecting religious freedom, still clings to the "hands off" practice of leaving alone any doctrine or practice billed as religion. A thorny problem is in deciding what constitutes a religion and who is to make that call. We must keep in mind that to be a loyal and faithful Muslim, a Muslim must adhere to and perform many obligatory acts, as specified in the Quran by Allah and the Hadith/Sunna, during his entire life.

The mosque serves as a house where Muslim devotees gather together for salat (prayer) and worshipping Allah and his messenger, the prophet Muhammad. Aside from worshipping Allah, a mosque is used for a variety of reasons. These meeting places are perfect warehouses of not only indoctrination, but future terrorists, who are made to read and understand the principles of Jihad, martyrdom and Dar ul Harb ("land of war"—any place not Islamized.) Mosques cost money, and the money for these warehouses of intolerance is coming straight from Saudi Arabia, **the number one terrorist state in the world.**

These mosques are being infused with an activist strain of Islam, **Wahhabism**. If you have to ask where the Saudi's are getting their money, you are not paying attention...it's coming from you. Not to mention, **the current U.S. administration** in its continuous war against the American people, is doing everything it can to accommodate the "Cordoba Initiative" project at taxpayers' expense "that is spearheading plans to build a **\$100 million Islamic center at Ground Zero**, the site where nearly 3,000 Americans were killed by jihadists on 9/11." The recent **CNN Poll shows 68%** of American voters oppose the Ground Zero Mosque.

Those useful idiot non-Muslims who support the building of the mosque near the 9/11 site or anywhere else by invoking the ideal of religious freedom, are empowering a creed that is devoted to stamping out freedom of religion or any other form of freedom.

In this relentless campaign, the Islamists have a vast cadre of "experts," "talking heads," and for-purchase politicians who keep endlessly broadcasting the false mantra that Islam is a religion of peace. This latter bunch is criminally complicit in making the populace complacent and furthering the work of the Islamists.

When mosques are built, imams, mullahs or mosque elders tend to be sent to the U.S. with one clear mission: Make Islamic religion, laws, and life supreme within the United States or any other host country, using any and all tactics necessary. Next, from within the safety of their local mosques, they begin to use their revolting practices and wild sermonizing to force the genteel Americans to relocate to safer, less threatening neighborhoods and cities as is the case in England and other European countries.

They will elect Muslims to all positions of local influence, who will create and enforce policy according to the Sharia law. Once they have control over a town, they will begin to establish informal Sharia, and there's nothing the government can (or will want to) do about it.

Sharia is the brutal means by which Islam controls its populations by force, intimidation, and punishments for offenses to Allah. Already in many European countries, national governments have, out of fear, given Islamic fascists the right to establish their own shadow governments within the borders of countries like Sweden and England, where they can control their own populations without accountability. Proposals for Sharia are being taken seriously by many western countries.

"According to early Muslim historians, towns that surrendered without resistance and made treaties with the Muslims gave the Muslims permission to take their churches and synagogues. One of the earliest examples of these kinds of conversions was in Damascus, Syria, where in 705 AD Umayyad caliph Al-Walid I bought the church of St. John from the Christians and had it rebuilt as a mosque in exchange for building a number of new churches for the Christians in Damascus. Overall, Abd al-Malik (Al-Waleed's father) is said to have transformed 10 churches in Damascus into mosques."

"The process of turning churches into mosques was especially intensive in the villages where most of the inhabitants converted to Islam. The Abbasid caliph al-Ma'mun turned many churches into mosques. Ottoman Turks converted nearly all churches, monasteries, and chapels in Constantinople, including the famous Hagia Sophia, immediately after capturing the city in 1453, into mosques. In some instances mosques have been established on the places of Jewish or Christian sanctuaries associated with Biblical personalities who were also recognized by Islam."

Again, Muslims first make their mark by establishing mosques in as many towns and cities as they can. These mosques range from the ostentatious, such as the one in Washington D.C., to the academically-cloaked university Islamic centers, to the innocuous storefront types and even prison chapels. One and all have the same aims: Hold the faithful in line, recruit as many new adherents by any and all means, and indoctrinate one and all in the imperative of Islamic conquest.

It is in these Islamic places that the impressionable young and the fanatical adults are drilled with the duty to carry

out Jihad against the Dar ul Harb ("land of war"—any place not completely under the rule of Islam.)

Operating this vast network of Islamism requires significant financing. Saudi Arabia has spent over **\$80 billion** for these operations since 1970. The other Persian Gulf States, with their treasuries flush with oil money, have done and continue to do their share of financing.

Not to be out-done by the virulent Wahhabism of the Saudis and their co-sectist Sunnis, the Islamic Republic of Iran has been bank-rolling its own array of clientele in the Middle East, much of Africa, and as far away as Southeast Asia and Latin America in a push for Shiism. The non-Muslim world is literally caught in a pincer of the two rabid Islamic forces.

There are those who still delude themselves by preferring to believe that Islam has not made as many inroads into the United States as it has in other parts of the world, such as Europe. Facts prove otherwise.

According to a **National Portrait**, a survey released in April 2001, there were at least 1,209 mosques in the US. According to the latest report, this number has sky-rocketed to as many as 6,000 mosques in 2008.

"The official Saudi website reported a donation of \$6 million, also in 1995, for a mosque in Cincinnati, Ohio. The website further stated, in 2000, "In the United States, the Kingdom has contributed to the establishment of the Islamic Center in Washington DC; the Omer Bin Al-Khattab Mosque in western Los Angeles, the Los Angeles Islamic Center, and the Fresno Mosque in California; the Islamic Center in Denver, Colorado; the Islamic center in Harrison, New York City; and the Islamic Center in Northern Virginia."

This entire guesstimate aside, a recent report from the FBI estimates that of the 2000 mosques in the United States, **10% preach Jihad**. Welcome to the religion of peace as it is invading the land of the free to make it the land of submission. This is not some Islam-hating crackpot group reporting. It is the FBI, an agency known for its bending backward to be politically correct in tune with the rest of the administration.

In addition to the mosques already built in the land of the free, Islam is advanced by a large cadre of auxiliaries. Dr. Paul Williams (former FBI consultant, best-selling author and investigative journalist) reports that many Muslim businesses around the country conduct their regular businesses during the day and in the evening they turn their stores into Islamic gathering places. There are several thousands of these make-shift "Takeyehs".

If only the masses of Muslims arise and carry out the orders of Allah, then we would have the promised paradise of Islam on earth as exemplified by such rules as that of the Taliban, Saudi Arabia, the Sudan, Somalia, and of course the Shiite nirvana of the Islamic Republic of Iran.

In these model Islamic societies, freedom of expression, worship, and assembly are taken away. Women are treated as chattel. Young girls are subjected to barbaric genital mutilation to make them sex slaves and birth channels without the ability to enjoy intercourse. Minors are executed, adulterers are stoned to death, thieves have their limbs amputated, and much much more. Isn't that everyone's idea of paradise?

What a travesty and how ironic indeed to have as many mosques as we already have in the U.S., yet, we intend to help the Islamists, building more training camps for future suicide bombers and endangering the safety of the American people and generations to come. With the average citizen, and not the devious and for-purchase-politicians, rests the solemn obligation to act, and act now, to compel our government to stem the tide of Islamism before it is too late.

It is tragic indeed that while our courageous service members are losing life and limbs in far and away places fighting Islamism, **useful idiots** and servile politicians of the highest rank at home bend backward to accommodate, even promote, Islamism.

There is a glimmer of hope that the American people are finally waking up to the deceit and the menace of the creed called Islam. Their opposition to the building of the mosque shows that the creeping Islamization of America is indeed something to stand against and prevent before it is too late.

Step 1 â€" Build a mosque in very nice neighborhoods in American towns where the kuffar (infidels) live.
Step 2 â€" Drive the neighbors crazy with the adhan (call to prayer) 5 times a day blaring over loudspeakers (very loud loudspeakers). Step 3 â€" Observe muslim families moving into all the houses being vacated by the formerly peaceful neighbors who have been driven crazy by the influx of Muslims, halal stores and restaurants, the islamization of the schools, etc. Step 4 â€" Watch as property values plummet in what was

once a nice place to live. Step 5 Be terrified as the neighborhood becomes a no-go, muslims only zone as is happening all over Europe. Step 6 Recall that this is what it must have been like in Dearborn, Michigan when the Muslims took over the city. Step 7 Learn about stealth jihad and how it insidiously spreads like a horribly infectious disease destroying neighborhoods and lives. The following is what happens when islamization and creeping sharia is allowed to infest a neighborhood, from Bare Naked Islam, 11/20/2008. Imagine what it is like for weak, innocent, elderly folk who have no option but to sit back and watch through the curtains, as this alien Islamic Kingdom grows within their midst, taking over their streets and community. They cannot get up and move out doing the White Flight like the rest of us, no, our most weak and vulnerable are just left, forced to sit and accept this abomination, watching the takeover of their streets and community by this ever advancing and growing Islamic community that brings with it the alien aggressive ways of its sub-human Islamic culture. So all of you liberal dhimmis thumping your chests with your naive and ignorant chants of 'this is America, everyone has the right to live and worship where they please, blah, blah, blah', you go ahead and welcome these new neighbors to your one-nice neighborhood. Just don't try to leave your house at night. In fact don't try leaving your house during the day either.

As a Muslims living in the west, I encourage these kind of negative articles about Islam. The reason is simple. The more Zionists become desperate and demonize Muslims and Islam in their widely read articles, the more Islam is introduced to the West. People are not always fools. They don't always accept what they are told as facts specially in this Internet age. They become curious and investigate. This is where Islam shines and expands. You have to know. Islam is the fastest growing religion on earth.

The only problem is that since 79 and even before that radical Islamic groups were/are supported by the US first under Brzezinski with the Afghan trap then in Bosnia which the Clinton government and the Neocons working with Bin Ladin helped support the Islamist regime of Izabegovich which Iran was at the forefront of support with Clintons administration approving the transfer of Iranian arms to Bosnian Mujahadeen <http://rpc.senate.gov/releases/1997/iran.htm> and CIA's own intelligence report stating the fact that in the 80's Iran was training Bosnian Muslims.

Brzezinski Obamas senior foreign policy advisor in his 97 book The Grand Chessboard admits the Islamic promotion from Saudi Arabia offsets Russian influence in the region.

'In fact, an Islamic revival - already abetted from the outside not only by Iran but also by Saudi Arabia - is likely to become the mobilizing impulse for the increasingly pervasive new nationalisms, determined to oppose any reintegration under Russian - and hence infidel - control.' (p. 133).

Good documentary which is far from extensive called Yugoslavia The Avoidable War the second part while far from extensive briefly covers this.

Also note that most of Obama's staff and advisors from Clinton's government and people involved in pro Iran/Muslim policy in the Balkans from Brzezinski to Hoolbrooke are running Obamas Afghan policy trying to destabilise Central Asia.

Saudi, Pakistani ISI and US band British intelligence have a long partnership and history of cooperation.

Most of Saudi Wahabbism is targeted at Russia and sponsorship of terrorism there which at least up until 2004 Saudi and Iranian cooperation supporting Kvadrat units (brainwashed child soldiers of Bosnian orphans financed by Saudi Arabia and Iran) based in Bosnia and coordinated through Islamic front charity TWRA (Third World Relief Agency) based in Vienna.

The main Saudi front Islamic NGO's the Benevolence Foundation which since the Bosnian war Atta and the other hijackers operated through and financed there stay in the US and Al Haramain both of which are accused in indictments regarding 9/11 of being involved in the attack.

How do I say that I read an article where a person wrote down almost all my thought and feelings about the Christian people and Islam. For sure, I, no way have the talent to write something so meaningful and to the point. Knowing just the minimal about Islam and Muslims was enough to feel a great threat. Similar to hearing there was a major earthquake across the Atlantic and it translated in my mind to a Tsunami on it's way. I don't feel sorry for the Ostrich (people) in Washington with their heads in the sand, I just pity them. They are not dumb nor ignorant but plain stupid.

The radicalization of Islam came partly as a response to colonial policies and our relentless support of brutal dictators (like the Saudis, the Shah of Iran, Hussein etc.) in Islamic countries, and only partly due to the clash of the Theocratic-medieval mentality with the modern West. One could point out though that American fundamentalist Christians are no less Theocratic, restrictive and warlike - without their support, Bush and the like could never have exacerbated the existing tensions between these cultures and made inefficient but brutal wars in several Islamic cultures. The only valid strategy in my understanding would be to cease all Western wars, discrimination and exploitation immediately as well as any support of brutal dictators with money and arms in Islamic cultures - then the two sides could at least talk in merito. If Islam would still remain so warlike and terrorist-minded after a few years of a Western d'Ã©tente, this article would be fully justified. I think the issue is a little similar to the cold and proxy wars with the Communist world of former times. My last point is that many Americans - more and more - question the conspiracy theory of the WTC blowup as published by the Bushists. It is by no means a consensually accepted issue. Your article loses some credit by not even mentioning that possibility.

Islam will take over not by war but by sheer population. Our birth rate is not even close - and once this generation of Arabs is at a voting age - it is the end of the road. Obama is only one of many. It is not GOING to happen - it IS happening now as we watch.

Finally!! Someone on the Internet is saying it as it really is. I've lived in the Middle East for 7 years & I can agree that this is nothing more than the one world of Islam & you and I will be killed if we do not accept Allah. Thank you.

islams absolute ambition is word domination, in any way they can get it ,murder ,lie ,cheat and out breed the indigenous population,allowing moslems to live in your country is suicide for a nation, the horrors of their social habits should have told us we were stupid , but our own lacks laws in the west has allowed our own destruction in generations to come, only the most stringent action against these thugs might hold up their advance, always remember there is no such thing as a moderate moslem ===only moslems that consider you a non person unless your a moslem.
